

# Callum Trounce

iOS Engineer

[ctrounce94@gmail.com](mailto:ctrounce94@gmail.com)

With an eye for quality and a passion for providing the the best user experience, I have a strong background in working independently and within larger, cross-discipline teams. I take initiative to improve processes and approach tasks with a positive, focussed mentality.

## Experience

---

### **ASOS.com, London** - iOS Engineer

Work within a team focusing on delivering and maintaining features, improving performance, and fixing bugs. Regularly meet with Solution Architects and other engineers in a cross functional capacity in order to plan and estimate required work for new features.

- *Point of contact for Experimentation*
- *Member of the iOS Design System team.*
- *Contributor to ASOS tech blog.*
- *Run weekly meetings for the whole iOS Engineering team.*

---

### **DTT (Digital agency), Amsterdam** - iOS Developer, Sub-lead

Leading an iOS team (5 people) within a 17 person cross discipline team. Responsibilities include:

- *Maintaining the Jenkins CI/CD pipeline.*
- *Building core/complex functionalities and project architectures.*
- *Manage app delivery and distribution to App Store Connect.*
- *Mentoring and supporting other iOS developers*
- *Write Unit Tests, UI tests and snapshot tests*
- *Debugging using Xcode instruments*

## Projects

---

### **Cocktail Drink Recipes** (iPhone App)

Browse random drinks. View recipes, add drinks and ingredients to your favourites list. Driven by REST API. Built with Swift UI, backed by Combine.

---

### **SwURL** (Swift Package)

SwiftUI Library. Provides a View which supports asynchronous image downloading. Built with Swift UI, backed by Combine.
